2. For Therapies:

2.1 One unit of evaluation equals one visit for evaluation.

2.2 The basis of payment for this service other than evaluation is an hourly unit of direct service time. Direct service time is the period of time spent with or on behalf of the consumer and verified by the consumer. When billing, the Qualified Vendor should round its direct service time to the nearest 15-minute increment, as illustrated in the examples below:

- If services were provided for 65 minutes, bill for 1 hour.
- If services were provided for 68 minutes, bill for 1.25 hour.
- If services were provided for 50 minutes, bill for 0.75 hour.

2.3 In no event will more than three consumers receive the same service with a single direct service staff person at the same time.

2.4 Clinical and Natural setting. A clinical setting includes the office or central location of the provider and generally requires the consumer to travel to the provider specifically to receive the service. A Natural setting includes the client's home and community settings, such as a park, restaurant, child care provider, etc, in which persons without disabilities participate.

2.5 The Medically Underserved adjustment is only applied to Ongoing Therapies. The Medically Underserved adjustment will not apply to therapy evaluation services.

2.5.1 The Division has designated client zip codes in the state as Medically Underserved at three tier levels.

- Services provided in Base Rate will receive the service model rate, or the floor rate, whichever is greater.
- Services provided in Tier 1 areas will receive a 10% premium over the model rate as noted on the rate schedule.
- Services provided in Tier 2 areas will receive a 25% premium over the model rate as noted on the rate schedule.
- Services provided in Tier 3 areas will receive a 50% premium over the model rate as noted on the rate schedule.
- See Appendix 2 for the designation of client zip codes by tier levels.

Description	Unit of Service	Multiple Clients	Benchmark Rate	Adopted Rate
<b>Occupational Therapy</b>				
Occupational Therapy/Early Intervention, Clinical Setting, 1 Client, Base Rate	Client Hour	1	\$57.52	\$62.80

## **Professional Services**

### **Therapies**

#### ***Sources and General Assumptions***

This section presents the data sources and general assumptions that are used in developing the Therapy independent models.

##### Data Sources

The following data sources were used as inputs to the models:

- ☐ Hourly wage information was obtained from the Bureau of Labor Statistics (BLS) for the hourly wages for specific occupations. The BLS information was as of May of 2005, obtained in 2007. All wage data was inflated to December 2007, mid-point of SFY 08.
- ☐ Inflation data was obtained from Global Insight (Q1 2007, Table 6.5CY: *Home Health Agency Market Basket*) to inflate wages to December 2007.
- ☐ The Arizona Department of Administration, General Accounting Office, Arizona Accounting Manual, Section II-D-6, published November 15, 2006, was used to determine the mileage reimbursement.
- ☐ The *FY 2006 Appropriations Report* was used to determine the cost per square foot of provider-used facility. This report was published by the Arizona Joint Legislative Budget Committee in July 2005.

In addition to the quantitative data listed above, the Division's service manuals and service specifications were reviewed. The purpose of this review was to ensure that model assumptions are in line with the service objectives, provider qualifications and units of service.

In the development of the models, the Division conducted a series of focus groups. The purpose of the focus groups was to better understand the productivity factors and cost drivers facing the therapy providers. In addition, the Division conducted an online survey to solicit additional input from therapy providers on productivity and elements of cost of services. Both the focus groups and the on line survey were used in developing and validating model assumptions.

##### General Assumptions

The following general assumptions were made for Therapy independent models:

- ☐ Employee related expenses (ERE) were assumed to be 30 percent of respective hourly wages for each service category. Refer to the *Employee-Related Expenses Assumptions* section for the ERE model and discussion.

## **Methodology and Assumptions DES/DDD Published Rate Schedule January 1, 2008**

- ☐ Total hours were assumed to be 8 hours per day and 2,080 hours per year.
- ☐ Where applicable, mileage reimbursement was assumed to be 44.5 cents per mile.
- ☐ Where applicable, cost per square foot of rental/leased office space was assumed to be \$15.50 per square foot (from FY 2006 Appropriations Report, as indicated in *Sources*).
- ☐ Where applicable, 3 years of amortization were assumed for the cost of equipment.
- ☐ Administrative overhead was assumed to be 12 percent of the total non-travel cost, this amount includes a factor of 2% for costs associated with the third party liability billing processes.

### ***Rate Schedule Features***

This section of the document presents information related to features of the rate schedule. Included is a discussion of the setting in which the service is delivered, the underserved adjustment factor, and the multiple client adjustment.

#### **Setting**

For each service, a “base model” was created based on a clinical setting, then adjusted to allow for natural setting related expenses including travel.

A “clinical setting” includes the office or central location of the provider and generally requires the consumer to travel to the provider specifically to receive the service.

A “natural setting” includes the home and community settings such as parks, restaurants, day care, etc, in which persons without disabilities participate.

Therapy Providers will bill the Division the appropriate rate based on the setting in which the service was delivered.

#### **Underserved Area - Tiers**

One of the goals of the rate setting process was to institute a rate system that encouraged the establishment of provider practices in areas of the State that have traditionally been difficult to serve. The current rate system for therapies was examined against this goal. It was concluded that the current system may have provided an incentive for the delivery of services in an area – because the rates increased in proportion to the miles traveled – but did not provide an incentive to providers to establish their practices in a difficult to serve area.

In order to establish and maintain provider capacity in rural and hard-to-serve areas of the State, the proposed rate schedules include a tier system. This system incrementally increases the base rate for a service to reflect the perceived difficulty in serving the area based upon the zip code of the client being served.

## **Methodology and Assumptions DES/DDD Published Rate Schedule January 1, 2008**

The determination of the perceived difficulty to serve an area based on the client zip code was a two step process. The first step was the analysis of provider locations within the state, the measurement of the distance from the center of each zip code to each provider, and the number and percentage of the units of service delivered in the zip code. For example:

Zip Code 85736 had 76.7% of its units served by a provider within 50 miles and 23.3% of its units served by a provider greater than 50 miles but less than 120 miles away.

An initial review of these data resulted in the categorization of the zip codes into three categories: a “base rate” category and two tiers.

The second step in the determination of the tiers was the review of the quantitative results by both the Early Intervention Redesign Team and personnel from the Division’s Districts.

This review resulted in the addition of a fourth tier that moved some of the zip codes that had been originally categorized as either “base rate” or the first tier into a new tier one that reflected the consensus of difficulty to serve.

The resulting general criteria for the assignment of a zip code to a tier category are:

- Base Rate – Generally the client zip codes with the majority of units delivered by a provider within 50 miles of the center of the zip code
- Tier 1 Rates – A tier that resulted from the judgment of the Redesign Team and District personnel from reviewing the client zip codes that had initially been assigned to either Base Rate or the first tier
- Tier 2 Rates – Generally the client zip codes with the majority of units delivered by a provider greater than 50 miles but less than 120 miles from the center of the zip code
- Tier 3 Rates – Generally client zip codes with the majority of units delivered by a provider greater than 120 miles from the center of the zip code

After the assignment of all client zip codes to a tier, an overall review was performed and based on additional judgments, selected client zip codes were moved to different tiers.

Appendix 2 displays the State’s zip codes and their assignment to the Base Rate or Tier designation.

The Base Rate classification for a client zip code will result in the base rate being paid for services delivered to clients with this zip code. The rates shown on the rate schedule for the tiers are adjusted by the following factors:

- Tier 1 = a 10% increase to the Base Rate derived from the independent rate model
- Tier 2 = a 25% increase to the Base Rate derived from the independent rate model
- Tier 3 = a 50% increase to the Base Rate derived from the independent rate model

# Methodology and Assumptions

## DES/DDD Published Rate Schedule

### January 1, 2008

The rates paid for therapy evaluations will not receive a tier adjustment.

#### ***Rate Model***

The Base Model for therapy services is for *ongoing* therapy in a *clinical* setting. One rate model was developed for three therapy services:

- ☐ Occupation Therapy
- ☐ Physical Therapy
- ☐ Speech Therapy

The assumptions and values included in the independent model are outlined in the table below:

#### ***Ongoing Therapy Services in Clinical Setting – Occupational, Physical and Speech***

<b><u>Assumption/Result</u></b>	<b><u>Value</u></b>	<b><u>Comments</u></b>
Unit of Service	60 minutes	Includes direct service time, assumed at 45 minutes, plus 15 minutes for notes/medical records.
Hourly wage	\$32.83	<p>This assumption is consistent with Arizona statewide hourly wage for Physical Therapist (SOC Code 29-1123) of \$30.19, taken from the BLS as of May 2005 and inflated to December 2007 (8.73%).</p> <p>The wage for physical therapist is the highest of possible wages for occupational, physical and speech therapists, as provided by the BLS.</p>
ERE	30.0% of wages	Without assumptions for part-time employees and turnover, the benefits model results in 24% ERE. After assumptions for 20% part-time and 20% turnover, ERE percentage is reduced to 18%.
Average weekly caseload	35 consumers	Assumption corroborated by the focus group studies and online survey.
Average DDD consumers per day	7 visits	Based on 5-day work week
Average billable hours per day	7 hours	Based on 7 consumers at 1 hour each.
Average non-billable time per day	1 hour	Assumes time for missed appointments (30 minutes), continuous education (12 minutes, or roughly 50 hours per year), and other non-billable activities (18 minutes, or roughly 75 hours per year).

**Methodology and Assumptions**  
**DES/DDD Published Rate Schedule**  
**January 1, 2008**

<u>Assumption/Result</u>	<u>Value</u>	<u>Comments</u>
Mileage per day	1.5 miles	Assumes travel to ISP meetings on consumers' behalf.
Mileage reimbursement	44.5 cents per mile	
Office square footage	250	
Cost per square foot	\$15.50	Allocated over total annual billable hours.
Cost of equipment and maintenance	\$2,000	Amortized over 3 years. Allocated over total annual billable hours.
Administrative overhead	10%	
TPL Management	2%	Expenses related to third-party billing
Model Benchmark Rate	\$57.52	The rate effective for September 30, 2007 (\$62.80) serves as the floor for the Adopted rate for Clinical Setting, Base Rate.

The Base Model was adjusted for the natural setting and evaluation services.

*Natural Setting:* For therapy services provided in a natural (in-home) setting, the model is adjusted to add 1.5 hours of travel time and 58.5 miles (totaling 60 miles). As a result, total non-billable hours increase to 2.5 hours per day, total billable hours decrease to 5.5 hours per day and total mileage allowance increases to 60.0 miles. These changes result in a reduced caseload and the allowance for trips between consumers. The resulting model has an hourly rate of \$77.94.

*Evaluation Service, Clinical Setting:* In a clinical setting, the rate for therapy evaluation is 3 times greater than the rate for ongoing therapy. This is because of the assumption that, on average, each evaluation session lasts for 3 hours. The resulting model has a rate of \$172.56. The unit of service for this rate is one encounter compared to an hourly unit of service for ongoing therapy.

*Evaluation Service, Natural Setting:* The evaluation therapy rate in a natural setting is derived from one hour of the natural setting rate and two hours of the Base Model rate. This has the effect of preserving the adjustment for natural setting. The resulting model has a *per encounter* rate of \$192.98.

Because the independent rate model for a Clinical Setting for the Base Rate produced a rate less than the rate that was contained in the July 1, 2007 RateBook, the Division overrode the rate model and adopted a floor rate for the Clinical Setting, Base Rate of \$62.80.
